

SUBHAJIT GUCHHAIT

FRONTEND DEVELOPER

Kolkata, West Bengal, India | +919734706521 | subhajit06521@gmail.com | [Portfolio](#)

Enthusiastic and detail-oriented Frontend Developer with 2+ years of experience creating responsive, user-friendly web applications. Proficient in HTML, CSS, JavaScript, jQuery, React.js, and Bootstrap, with hands-on experience in WordPress development, including custom themes. Skilled in backend development using CodeIgniter. Adept at collaborating with cross-functional teams, contributing to technical documentation, and participating in client meetings. Committed to building intuitive interfaces and delivering seamless digital experiences across devices.

PROFESSIONAL EXPERIENCE

Frontend Developer

Avant Garde Technologies – Kolkata, India

September 2023 – Present

- Led the development of interactive, user-centric web interfaces using React.js, Bootstrap, and JavaScript.
- Worked closely with backend developers using CodeIgniter to integrate data and ensure smooth functionality.
- Developed and customized WordPress websites by converting HTML templates into dynamic WordPress themes.
- Participated in client meetings to gather requirements, discuss timelines, and provide technical input.
- Contributed to project documentation to support development processes and team coordination.

HTML Developer

Technosolis Informatics Limited – Kolkata, India

April 2023 – August 2023

- Designed and developed responsive web pages using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Worked in coordination with senior developers and designers to meet client expectations and project deadlines.
- Focused on cross-browser compatibility and optimizing page performance for all screen sizes.

PROJECT HIGHLIGHTS

- Built multiple custom websites combining frontend and backend features, ensuring optimal performance, security, and user engagement.
- Developed interactive business websites and landing pages with modern UI/UX practices using HTML, CSS, JavaScript, jQuery, React.js, and Bootstrap.
- Integrated backend logic for form submissions, admin panels, and user dashboards using PHP and CodeIgniter 3.
- Created responsive and SEO-optimized websites using WordPress, customizing themes and plugins to meet client-specific needs.
- Customized and maintained an existing AMC (Annual Maintenance Contract) web portal—enhancing UI, fixing bugs, and adding new features for improved user experience and performance.
- Participated in full-cycle development—planning, coding, testing, deployment, and documentation.
